Re: Public Information Meeting – South Shore Drainage Project

Dear Resident:

I am writing to inform you of planned construction activities scheduled to occur on Hickory Street, Poplar Street, and Hillside Road. The project will include installation of a new storm sewer, replacement of storm sewer culverts and driveways where necessary, regrading of the ditches and replacement of culverts where necessary, and repaving of the roads. In addition to the storm sewer, Hillside Road, Maple Street, and Elm Street will be repaved from Poplar Street to South Lake Shore Drive. Local traffic will be allowed throughout the project and the boat launch at the end of Hillside Road will still be accessible. Residents will be provided access throughout the duration of the project.

Town staff, along with our consultant (Kapur & Associates), will hold a Public Information Meeting on Wednesday, April 3, 2019 from 5:00-6:30pm at the Town Hall (W3728 Franklin Walsh Street).

Your attendance at the meeting is encouraged as staff will discuss the work to be performed and present a more detailed construction schedule. At present, construction activities are scheduled to begin in Spring 2019 and be completed in late Summer 2019.

Along with Town staff, our consultant will work to keep any inconvenience to a minimum in order to complete this project in a timely and professional manner.

Sincerely,

Matt Wittum  
Highway Superintendent
